LUXEMBOURG

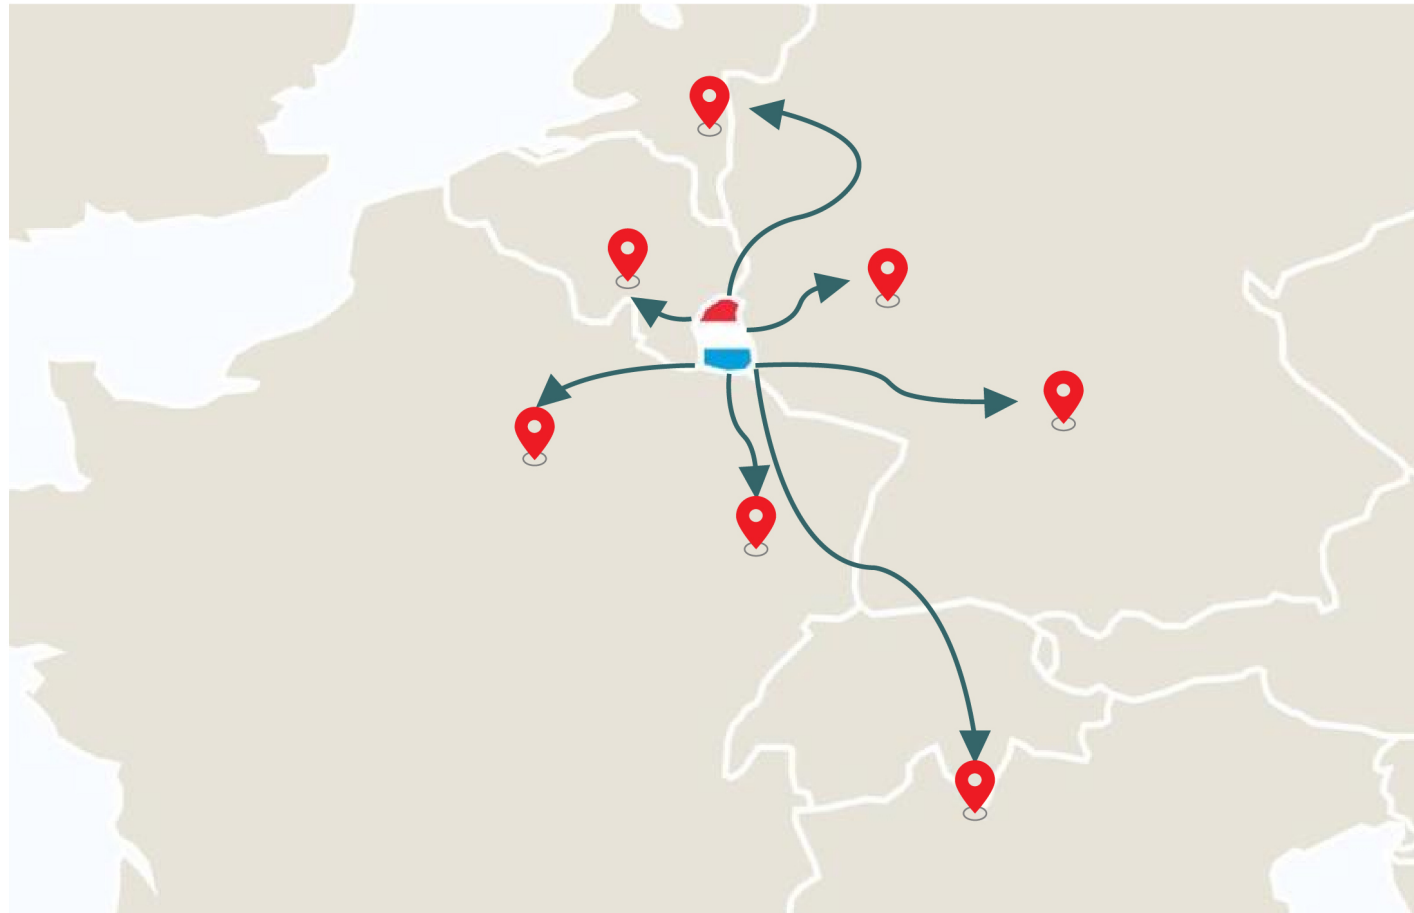

Eco-Friendly Plastic Food Packaging Containers

COMPANY PROFILE

Qivi Sarl Lux, established in 2023, is an innovative distribution company based in Luxembourg. We specialize in supplying eco-friendly food packaging solutions and equipments for restaurants, hotels, catering services, and various other establishments, meeting the evolving demands of the modern food market.

As a sustainability-driven organization, Qivi Sarl Lux is committed to providing our customers with top-quality products that balance affordability, reliability, and environmental responsibility. Our extensive range includes biodegradable and compostable products and packaging designed to support a sustainable future.

SERVICES CLIENTS

We pride ourselves on providing a comprehensive range of services to meet the diverse needs of our clients in the market sectors.

We understand the critical importance of maintaining the safety and appeal of food, beverages, and other items. Therefore, all our products are meticulously designed and presented with these objectives in mind, ensuring they meet your market's and customers' needs with key sustainable materials, making Qivi Sarl Lux your trusted and versatile eco-friendly partner.

PROFESSIONAL SERVICES

Qivi Sarl Luxembourg is a leading distributor specializing in providing high-quality utensils to restaurants, hotels, markets, and more. Our professional team, in collaboration with our esteemed Business supplier partners in Taiwan and China, enables us to offer customized services from initial design and drawing to prototyping and mass production.

Our dedicated sales staff provides expert advice tailored to market needs, ensuring that we deliver quality and efficient services to our clients. Whether your concept is a simple sketch or a detailed design, we have the expertise to bring your ideas to life.

MATERIALS INTRODUCTION

Remarks: ●●● Excellent ●● Good ● Fine ○ Poor

Material Name	Mark	Biodegradable	Hot Resistance	Rigidity	Impact Resistance	Grease Resistance	Microwave
PET	Recyclable	NO	60 °C 140 °F	●●	●●	●●●	NO
RPET	Recyclable	NO	60 °C 140 °F	●●	●●	●●●	NO

PET: PET is 100% recyclable and reusable to achieve the sustainable goal. It is heat-resistant to 60 degrees Celsius and cold-resistant to -10 degrees Celsius. It can make products with high transparency and lightness, and it is often for cold food packaging, such as salads and appetizers.

RPET: RPET products also inherit the characteristics of PET products, which are light, thin, durable, highly transparent, and can be recycled again. Because there has no process of refining from crude oil, the carbon footprint and the possibility of other pollution can be decreased in the process of producing RPET products.
